Pudd'nhead Wilson

As you read *Pudd'nhead Wilson*, you'll want to keep your Novel Notebook handy. Here's a list of what you'll be looking for and recording. Include page numbers:

Any of Mr. Wilson's witty sayings that you like.
Two examples of prejudice.
At least one place where Mark Twain uses foreshadowing.
Something ironic.
Any ideas about why The Tragedy of Pudd'nhead Wilson is, well, a tragedy for
Pudd'nhead Wilson.

During the discussion time you have with your class or reading group, you'll report what you found. Or your teacher may want to look at your Novel Notebook to see your ideas.

Mark any passages in *Pudd'nhead Wilson* you like or don't like, that you find interesting or well written. Or enter them in here for future reference. If you want to remember a long passage, you might want to type it into a special file on your computer instead of using your Novel Notebook. You'll do this activity for each book you read in this course. Why?

Taking note of interesting, well-written, or super-boring passages makes you a better reader and a better writer. By examining what makes the passage so appealing or appalling, you can delight in the way it was put together, and you can teach yourself how to write effective fiction. Or you can learn how *not* to write!

Ready? Let's go!

The War of the Worlds

H. G. Wells devoutly believed in the Theory of Evolution. The months he spent studying biology and dissecting all sorts of animals under Professor Huxley affected young Wells profoundly. Charles Darwin had been a frequent speaker at his college but had died two years before Wells attended there. However, Darwin's influence and teaching permeated the classes and the labs. Students and professors felt they were doing groundbreaking work, especially as the evolutionary tree of life was still being developed.

As you read *The War of the Worlds*, make three separate lists in your Novel Notebook. Include the page numbers where you find the information.

List 1: Three passages that show evolutionary thinking

List 2: The main character's reactions to and descriptions of the curate (a clergyman)

List 3: The dangers or troubles the main character encounters

3 passages that show evolutionary thinking:

The Theory of Evolution—Briefly
The belief that

- Life developed from non-life.
- All life on earth descended from a common ancestor through genetic adaptation, natural selection, and survival of the fittest.
- One species can change into another, given enough time.
- God had no part in the process.

The original name of Charles Darwin's book on this topic is *On the Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life*. Darwin did not initiate the theory, but his work helped popularize it.

How do the main character's beliefs shape his actions?

The Friendly Persuasion

Please record these things as you read *The Friendly Persuasion*. Include page numbers.

- Three metaphors
- Qualities or traits of Jess and Eliza that help them get along and preserve their marriage

You'll refer to the last item in the list (the qualities or traits) as you discuss the stories with your class or teacher.

Also, you'll use your Novel Notebook to record answers to the questions listed after each short story you read. The questions are in your textbook under The First Six Chapters and The Last Eight Chapters. They are also included here in your Novel Notebook so you don't have to rewrite everything.

Three similes:

"From a big-footed, gold-downed gosling she swelled, almost at once, like a slack sail which gets a sudden breeze, onto a full-rounded convexity."

Three metaphors:

Peter Pan

Make up the name for a new sports team and create a symbol or mascot for it. Then make a list of the qualities this new symbol stands for. For instance, the football team in Denver is called the Denver Broncos. Broncos are wild, untamed horses known for bucking, which makes them an appropriate name for a football team.

Name and Mascot

Qualities

You won't be answering any questions about *Peter Pan* in your Novel Notebook. However, you will be exploring the hero's journey in your own life.

Use the illustration on the next page to map out a recent incident in your life. Maybe you haven't flown to magical islands, but you have had adventures of some sort.

Think about an incident or story in your life and identify it here:

Now turn the page to map it out as a hero's journey plot.

Warriors Don't Cry

Why don't warriors cry?
Or do they?
If they do, when is it safe?

These and other questions bubble up from the deep recesses of a teen trying to deal with undeserved hatred and torture. The treatment she receives from the hands of adults and other teens is shocking—so shocking that she hides her true self away and, against her will, becomes a warrior.

As you did with *The Friendly Persuasion*, you will pause at the end some of these chapters to respond to them. The chapters are short and go quickly. Keep your Novel Notebook with you, for you will be using it as you answer questions.

There are too many questions here to answer all of them. The reading schedule divides the book into three sections. Choose **three chapters from each section** and answer the questions from those chapters.

You will note that the chapters are not titled; they are simply numbered. Name the chapters according to their content and what sticks out to you about them.

Author's Note through Chapter 9

Directions: Answer the questions for three of the chapters in this section.

ACKNOWLEDGMENTS, AUTHOR'S NOTE, AND INTRODUCTION

What are your impressions of a woman who would acknowledge students who "refused to torture us," even though they did nothing positive to help her?

What are your impressions of Melba Pattillo Beals so far, just from the front matter? (Note: **Front matter** is all the stuff before chapter 1 in any book.)

Here's a picture of Central High School in Little Rock, Arkansas—an imposing edifice reminding one of a castle. Two *very long* wings to the left and right are cut out of the picture. Around the reflecting pool in the front of the building are nine benches. Each one of the Little Rock Nine has his or her name on a bench. As you can see, there's plenty of room in front of this building for angry protesters.

What I'll remember from this book

What I'd like to forget

Fahrenheit 451

There's nothing to see here. Move along.

No lists to record unless you want to pay attention to the lists in your textbook by noting them in your book.

Here's what you'll be doing in here:

- 1. Choose a time period anywhere from four hours to seven days.
- 2. Turn off all personal and entertainment technology during that time—mobile devices (except for emergencies), tablets, TVs, radio, social media, and so on.
- 3. Record on the next page what happened to you during your experiment and how you felt about being disconnected from those distractions.

Extra for writers: To learn a powerful method of writing, check out the conditional tense on the page just after your "disconnected" report.

Okay, so I tried it for	hours/	days.

Conditional Tense

The tense that uses "would" can be powerful and poignant to readers. Read pages 135-6, beginning with "Millie was not here "

Montag, still in the river, smells dry hay, and this reminds him of a distant memory of a real farm. He imagines he would sleep in the fresh hay in the loft. He is not sleeping in the loft; he is imagining it. He imagines what would happen: He would see the lights in the farmhouse go out. He would see a woman backlit in the window. He would feel safe. He would find "an incredible thing" the next morning at the bottom of the stairs.

These are his longings, his deep desires for peace, for being "fully aware of the world," for a cessation of turmoil and distractions. The conditional tense's use of "would" indicates what Montag wishes would happen. This is very powerful writing!

Now you try it. Take a character you've read about this year in this course or elsewhere and write his or her deepest longings in a few paragraphs using the conditional tense's "would."

The Screwtape Letters

Welcome to the dark side, where God is considered the Enemy and where the devil is revered (feared?) as Our Father Below.

The purpose of C. S. Lewis's exercise is to show us how we can be duped, fooled, or twisted into doing what the true enemy of our souls wants us to do, how we can be led away from the God who loves us. To that end, you'll be exploring some of the dark side's techniques.

This chapter in your Novel Notebook is divided into three sections:

- Letters 1-6
- Letters 7-19
- Letters 20-31, including "Screwtape Proposes a Toast," if available

You'll select **three the letters in each section** to answer here.

Or ask your teacher which letters or which questions below you should focus on and then answer those.

Letters 1-6

Please select three of the letters in this section to answer here.

Or ask your teacher which letters or which questions below you should focus on and then answer those.

Letter 1

- 1. Who are Screwtape and Wormwood?
- 2. Screwtape remarks that the patient shouldn't think of ideas as true or false but should judge them on the basis of popular jargon: academic or practical, outworn or contemporary, strong, stark, or courageous. Here are two modern examples of this skewed way to judge ideas. To watch a cool video of this chapter in comic book form, narrated by Andy Serkis (who played Gollum of the Lord of the Rings movies), go to https://www.youtube.com/watch?v=D3MWVMKKY3A.

The **first example** is a question found in a recent high school yearbook: "Would you have enough courage to tell a lie?" Notice that lying/telling the truth are not being evaluated on the basis of whether they are right or wrong but on the basis of which one is more courageous. This is what makes the question so slippery—who doesn't want to be thought of as courageous?

The **second example** is 29-year-old Brittany Maynard who decided to end her life in November of 2014 before her cancerous brain tumor did. Her suicide was hailed as brave and humane and was called "death with dignity" instead of suicide. She called her choice a "health-care choice" and "a freedom," according to www.nbcnews.com, that she hoped others would someday be able to take advantage of. People who viewed this decision through the lens of right and wrong often were considered cruel or lacking in compassion.

Write below any example of this shift from the arena of right and wrong to the arena of other values or catchwords such as "reasonable," "financially responsible," "compassionate," "brave," and so forth. You may use examples from life or from literature.
